

In the past years, HT has launched 60 services from Asia to Turkey and today by aiming to become the global logistics provider and freight forwarder has announced a new service to satisfy customer requirements. The new direct service of FCL & Less than Container Load (LCL) services will connect the ports in Turkey, Ambarli, Izmir, Gemlik & Mersin to Ukraine, Odessa & Ilyichevsk & Russia, Novorossiysk & deliveries to Moscow. Bilateral trade volume between Turkey & Ukraine as well as between Turkey & Russia increase every year, HT by own offices in Odessa, Moscow and Novorossiysk aimed to launch this new regular service.

These new direct LCL & FCL services will enable shipments to arrive early with the new direct twice-a-week service from Istanbul to Odessa & Novorossiysk offering increased options while exporters using HT's transit times reduced to 4 days to Kiev, 5 days to Moscow by inland trucking door delivery services. Bringing these new direct LCL services from Turkey enables us to provide more options for businesses in Black Sea to deliver their products to Ukraine &

Russia and in the meantime, strengthen our overall capacity of LCL services. It will also help further enhance the competitiveness of Odessa & Novorossiysk ports in Black Sea market.

With the new direct services, customers in Ukraine and Russia will benefit from our reliable and shorter transit times, and a seamless door-to-door service complete with full track and trace capabilities. As volume from Turkey to Ukraine and Russia remains high, these new direct LCL services also reaffirm our confidence in our export economy and the continued demand for our LCL services.

The introduction of this weekly service is part of HT's continuing plans to expand our own operated, weekly guaranteed, LCL services globally as well as increasing our investments in the very potential Black Sea area. Our expertise and capabilities in LCL have further strengthened our leading position in the region and globally.
