

Regulatory Compliance & Safety

HT's policy is to protect the environment and the health and safety of its employees, its customers and of the public. We strive to conduct our activities in an environmentally sustainable manner. To accomplish this, the company is committed to maintaining management systems, programs and procedures for the environmentally responsible management of:

TRANSPORTATION AND HANDLING EQUIPMENT

MARKETING AND SALES

CONTRACTED SERVICES

MAINTENANCE FACILITIES

We support this policy by maintaining compliance with applicable governmental laws and regulations, as well as the company policies and requirements, based on a philosophy of continuous improvement. To that end, guidelines have been developed to ensure that HT remains in compliance with all applicable state and local laws and regulations relating to the safe and environmentally responsible transportation of hazardous materials.

Health and Safety Emergency Response

In the unlikely event of an accident or a chemical release, HT's expert staff of Risk Managers are on-call 24-hours a day.

HT has nationwide network of approved and insured

Emergency Response contractors to assure a quick professional response to any type of emergency

HT's Risk Management team is thoroughly trained

All HT's power units are equipped with a 2-way satellite communication and GPS device.

For additional security and communication, all HT Drivers as a condition of employment are required to carry a cellular phone.

World Class LTL Service

HT's unique "Load to Deliver" service features an asset based, single line haul with only one terminal consolidation stop en-route to destination. This technique reduces transit time by a full 24 hours to most destinations. The reduced handling at way points means less exposure to loss and damage.

HT Team

HT is proud of the finest, most highly motivated team of professionals in the auto transport industry. We expect world class performance from our dedicated operators and we offer a premium in return. Our drivers are at the top of the industry because they enjoy the finest fleet of trucks, unparalleled attention and communication, and a top pay and benefits package, all of which are second to none. We are continually looking for ways to improve our processes and methods and always willing to invest in newer, more innovative approaches to serve our people better.
