

Istanbul | Moscow

HT with offices in Moscow & Novorossiysk has launched the new routes:
Istanbul | Novorossiysk | Moscow
Istanbul | Odessa | Moscow
by weekly direct sailings and truck/rail deliveries to Moscow.

Besides FCL cargoes, we accept LCL & FCL cargoes in Turkey with transit times of 6 days to Moscow.

With the new direct services, customers in Russia will benefit from our reliable and shorter transit times, and a seamless door-to-door service complete with full track and trace capabilities.

As volume from Turkey to Russia remains high, these new direct LCL services also reaffirm our confidence in our export economy and the continued demand for our LCL services.

Our expertise and capabilities in LCL have further strengthened our leading position in the region and globally.

Istanbul | Odessa

The weekly and direct sailing schedules had increased as far as Odessa becomes a transit hub for shipments to Ukraine, Russia, Belarussia & Moldova. By operating in both ports of Ilyichevsk and Odessa, HT offers you the suitable service of direct vessels 3 times in a week.

Besides our weekly FCL services from all Turkey ports, our weekly LCL services from Istanbul to Odessa. Together with our services:

- ✓ Port operations including port forwarding, transit customs and customs clearance.
- ✓ Storage of the goods at bonded warehouses.
- ✓ Local distribution network in Ukraine by trucking services included bonded & non-bonded trucks.

Istanbul | Kiev

Our Istanbul | Odessa | Kiev route provides the fastest delivery time by direct sailings from Istanbul to Odessa and then by truck transportation to Kiev after customs clearance in Odessa or after transit customs by bonded delivery to Kiev customs.

We are pleased to provide the weekly direct LCL service besides our FCL services to Kiev with delivery of the goods in 5 working days from Istanbul.

Benefits of using HT:

- ✓ consignments by small size motor vehicles
- ✓ company-owned customs brokerage services
- ✓ a fleet of modern trucks
- ✓ cargo tracking and tracing
- ✓ organization of qualitative and quantitative examination of cargoes
